Good Evening Bette,

Thank you for having me to your home. It has been a pleasure talking with you. Please review the attached quote.

The air conditioner sound decibal levels are:

Stage 1 - 57 Db

Stage 2 - 66 Db

Let me know if you have questions.

Thanks,
Alan

Additions Application (Page 3 of 3)

Basic Policy for Additional Construction

****ALSO SEE THE ACC GUIDELINES****

Any additional construction upon a building site must be submitted to and approved by the Architectural Control Committee prior to commencement. In the event approval has not been received, a "Stop Work Order" will be issued until such time as the property paperwork has been received and processed by the MCCA office. As part of the submittal procedure, the following information must be furnished to the ACC before the submittal is acted on:

1. Detailed information, written or printed, on type of addition that is planned for the site. This information should include exact location, finished dimensions, color, style, materials, etc.
2. An elevation drawing or a perspective drawing of the proposed additional construction sufficiently detailed so as to show the appearance of the addition and its relationship to the existing structure.
3. A sketch of the property showing the relationship between the proposed addition and all other adjacent structures. It is the homeowner's responsibility to locate and identify all property markers, both at the site and on the sketch included with the submittal.
4. As a matter of record, a projected completion date is requested by the owner. The self-addressed postcard included with written approval must be returned to the Association Office upon completion of the project so final inspection may occur and the submittal file closed. If any extension of the completion date is necessary, or the project is canceled/postponed, the Association Office should be notified.
5. Approved plans are subject to final inspection if deemed necessary by the Committee. All plans become the property of the Association and will be filed in the lot file. In case of changes, plans should be resubmitted to the Committee prior to construction. Variance from approved plans may be subject to the change at the homeowner's expense or removal at the discretion of the Committee.

This signature verifies that the applicant has reviewed the above policy, and agrees to abide by all guidelines and terms of approval set forth on the application attached. Signature also implies "Right of Entry" for members of the ACC for the purpose of plan review.
