Fence Application (Page 3 of 3)

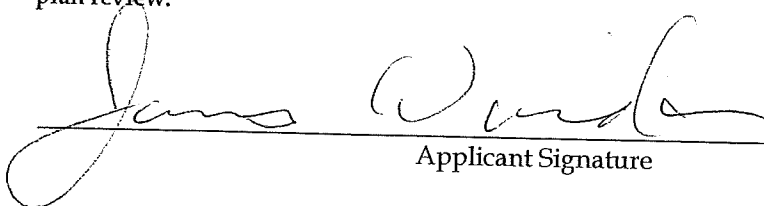

Basic Policy for Fence Construction

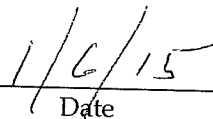

Fences are acceptable structures in Mill Creek, but must be constructed so as to maintain the integral character of the community and, pursuant to this concept, the following guidelines are hereby established by the Architectural Control Committee:

1. Prior to commencement and erection of any fence, a drawing of the design and specifications describing the type, shape, materials, height and color must be submitted, in duplicate, and approved in writing by the Committee. The detailed information must include the exact location of the fence in relation to the property boundaries and existing structures. It is the applicant's responsibility to locate and identify the property markers, both on the site and as submitted on the accompanying sketch.
2. **Fences will not be permitted in the following areas:**
 - 2.1. Front yard of any lot
 - 2.2. Rear yard of any Fairway lot except where enclosing a swimming pool.
 - 2.3. Cutting preserve area along Village Green Drive and Trillium Boulevard, except when enclosing a swimming pool.
 - 2.4. Any common property, or any portion thereof.
3. **General conditions for fencing:**
 - 3.1. Natural evergreen screening is encouraged. If natural screening is installed, temporary fencing may be approved if erected simultaneously with natural permanent planting.
 - 3.2. All fences shall harmonize with the existing or new landscaping. The Committee will consider, in addition, the harmony of external design and location in relation to topography and surrounding structures.
 - 3.2.1. Fencing is to be no higher than six feet as measured from average grade surrounding the fence.
 - 3.2.2. The finish shall be consistent with the material and color of the adjoining residence, except natural transparent stain may be used on cedar or redwood fencing.
 - 3.2.3. The finished side must face adjacent properties and streets.
 - 3.2.4. Chainlink and other similar products are strictly prohibited. (Article IX, Paragraph 9.1.10)
 - 3.2.5. All fences shall be maintained in a proper condition.

Please Note: Approved plans are subject to final inspection, if deemed necessary by the Committee. In case of changes, the plans must be resubmitted to the Committee. Any variance from presented plans may be subject to change or removal at the committee's discretion. Any construction without approval will result in a "Stop Work Order" being issued until such time as the property approval process has been complete.

This signature verifies that the applicant has reviewed the above policy, and agrees to abide by all guidelines and terms of approval set forth on the application attached. Signature also implies "Right of Entry" for members of the ACC for the purpose of plan review.

Plan and Specification Review Determination
Tree Trimming / Removal Application (Page 1 of 3)

MCCA requires the replacement of trees as follows: "In cases of approved removal, the Association requires replacement on a 1-1 ratio with 8-10 foot trees; unapproved removal will require replacement on a 2-1 ratio with 8-10 foot trees. Replacements are to be planted on private property or other locations determined by ACC. Removal of native evergreens will require replacement with native evergreens. You may need the City of Mill Creek's approval. (425) 745-1891.
